VOICE OF HOPE

Ray Robinson

Vice President, Global Operations, Voice of Hope Radio

Presentation to the

High Frequency Coordination Conference

B16, Miami, Florida

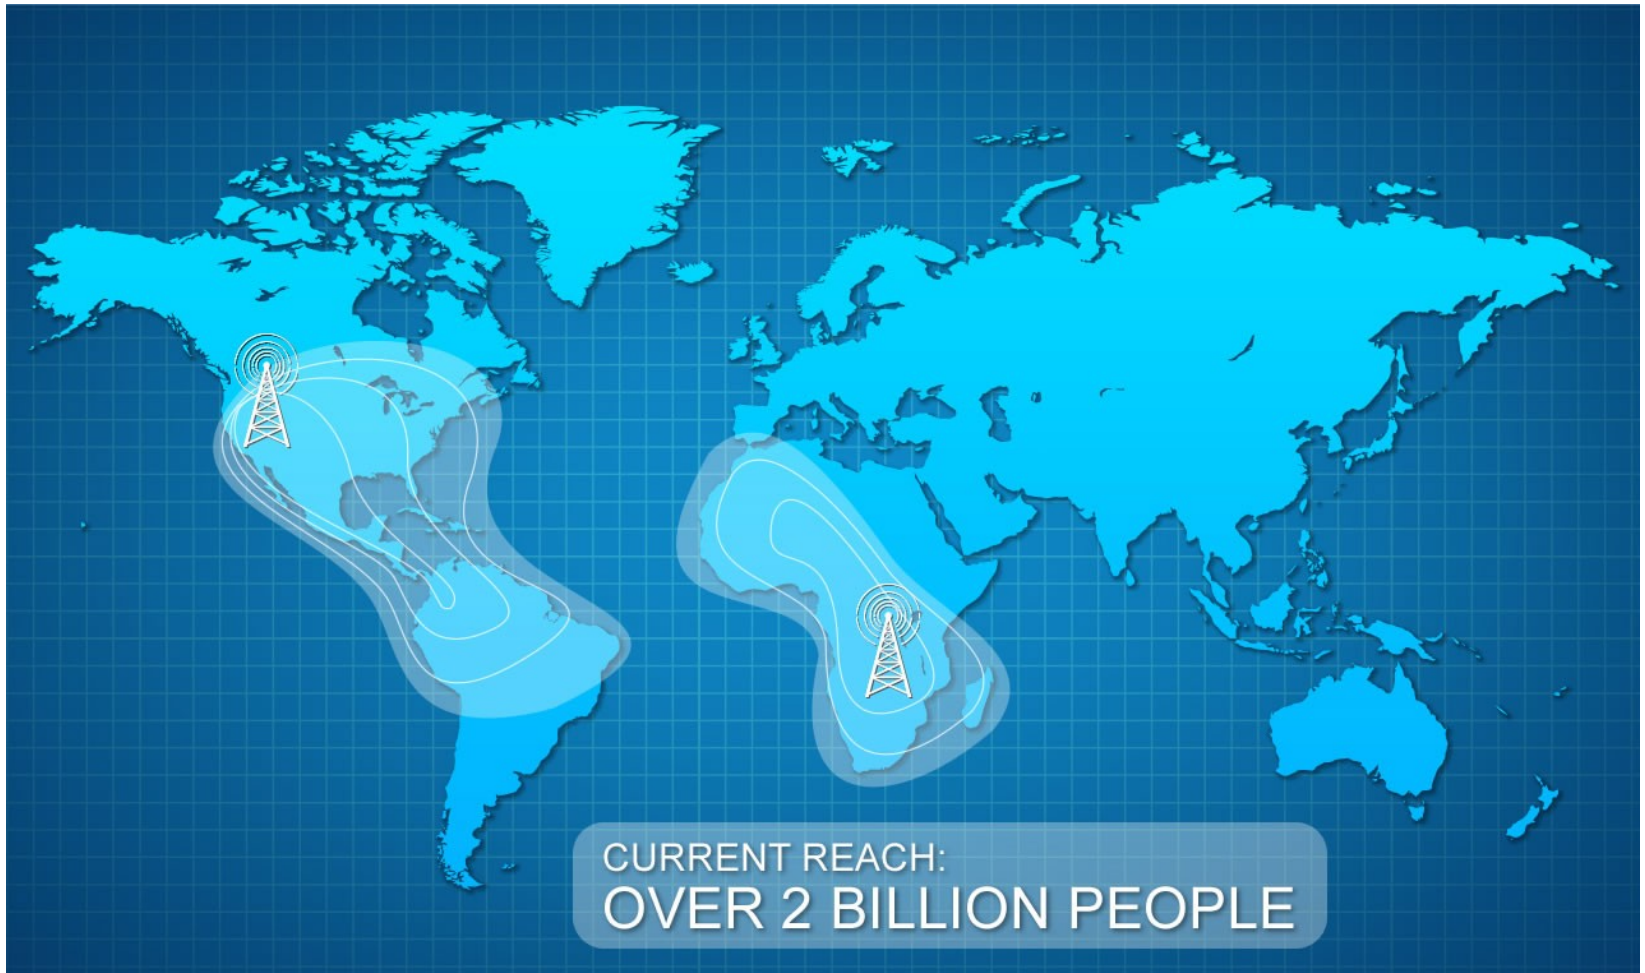

Tuesday, August 23, 2016

STRATEGIC
COMMUNICATIONS GROUP
VOICE OF HOPE

Two shortwave stations:

- **Voice of Hope – Americas (KVOH – Los Angeles)**
- **Voice of Hope – Africa (Lusaka, Zambia)**

Our purpose is to “reach the world, with God’s Word, through radio.”

AMERICAS

❑ **KVOH, Los Angeles**

- Built in 1986
- Changed hands in 2002; closed in 2009
- Sold to Strategic Communications Group and re-opened November, 2013

❑ **Currently broadcasts**

- 50 kW using an RCA transmitter and TCI log periodic antenna
- 5+ hours daytime Mon-Fri in Spanish on 17775 kHz
- Evening broadcasts in English on 9975 kHz to resume in the near future

❑ **Future plans**

- 100 kW transmitter, additional log periodic antenna
- Expand broadcast schedule to 18 hours per day
- DRM in English for North America

Transmitter Hall and TCI Log Periodic Antenna

Harris S100 arriving from KTWR, Guam

AFRICA

❑ Voice of Hope – Africa

- Station originally built by Christian Vision to reach Zambia and Nigeria
- Supplemented by an FM network, and eventually closed in 2012
- Sold to Strategic Communications Group and re-opened in May, 2016

❑ Currently broadcasts

- 3-5 hours daily in English on 9680 kHz to Central & Southern Africa
- Coverage to West Africa to begin soon

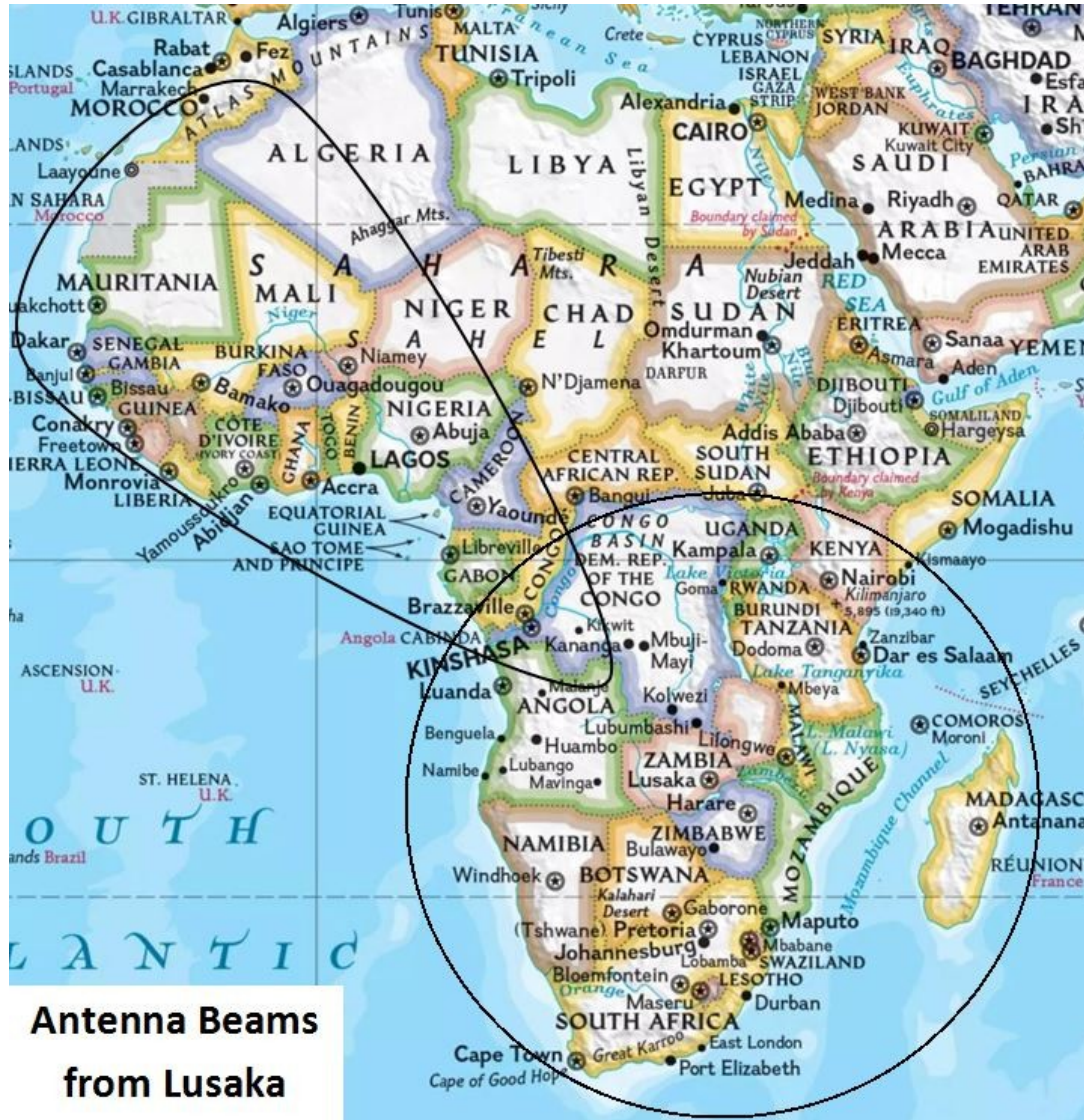

❑ Future plans

- Low power SW, with additional antenna, for Central Zambia
- Evening broadcasts on 4965 kHz
- Expand broadcast schedule to 21 hours per day
